Winter 2023/24

## Tirol

### New Lifts

#### **6SB Trattenbach and 6SB Gauxjoch**

Where: Kitzbühel

When: December 2023

KitzSki replaces its ski lifts F6 Gauxjoch and F7 Trattenbach with modern 6-seater chairlifts. This project comprehensively covers all the main aspects (social, ecological and economic) of sustainability and offers guests a great improvement in quality and comfort.

#### **Komperdellbahn**

Where: Serfaus

When: Winter 2023/24

From the 2023/24 winter season, guests will whizz even more comfortably from Serfaus up to the Komperdell at 2,000 m thanks to the new Komperdellbahn. The start of construction was originally planned for 2021, but had to be postponed by a year due the pandemic. The new lift will equalize highly frequented areas, offer an alternative descent to challenging passages and more direct connections.

#### **Name: Galtbergbahn**

Where: Skizentrum Schlick

When: Winter 2023/24

The Schlick 2000 Ski and Hiking Centre is replacing the Galtalm T-bar lift from 1961 with a modern and comfortable 10-seater gondola lift, which will lead to a significant improvement in quality and comfort and make life easier for ski schools and beginners in particular. It features 23 spacious XLine deep cabins with premium floor seats, powerful speed of up to 6 m/s with a ride time of around 4 minutes, transport capacity of 1,400 people per hour, which can be increased to a maximum of 2,000 people per hour. The ropeway is equipped with the gearless and almost noiseless, environmentally friendly direct drive developed by LEITNER. This results in energy savings of up to nine percent and the elimination of all gear oils.

#### **Ehrwalder Almbahn**

Where: Ehrwald, Zugspitze

When: winter 2023/24

Newly rebuilt valley station (new escalators to the cable car, covered bus stop, Kiss & Ride area, underground car park, shop, ski depot, new ticket office area, lift), piste (piste correction, renewal of snowmaking system), and mountain station (training room for apprentices, expansion of snow groomer garage)

### **10-seater & 6-seater Wilde Krimml**

Where: Zillertal Arena

When: Winter 2023/2024

The connection between Zell and Gerlos will be more comfortable, more efficient, and much more attractive from this winter. The **Krimml-X-Press**, a wind-stable 10-seater gondola lift without any intermediate stops, will transport guests quickly and safely between Zell and Gerlos. The spacious gondola cabins will be equipped with seat heating for even more comfort. The planning not only focused on state-of-the-art cable car technology, but also made a statement architecturally by collaborating with the internationally renowned firm Snøhetta.

More comfort also awaits guests in the Königsleiten area. The fixed-grip Mitterleger 2-seater chairlift makes way for a comfortable detachable 6-seater chairlift with bonnet and seat heating. The new **6 CLD Mitterleger** lift can transport up to 2,000 people per hour from approx. 1,772 metres to approx. 2,151 metres in 4.35 minutes.

### **New offers / activities**

#### **Name: Visorium**

Where: Zillertal/ Mayerhofen

When: Autumn 2023

In late autumn 2023, a new indoor leisure facility will open in the heart of Mayerhofen for guests who love games and puzzles. Spread over 2,000m<sup>2</sup>, historical stories, legends, and landmarks of the Zillertal wait to be experienced in various forms and activities. The adventure journey leads through an "Adventure Golf" facility, a laser tag arena, Escape Rooms, or the in-house restaurant. Visitors are to learn interesting and exciting facts about the rear Zillertal through entertaining activities.

## Vorarlberg

### New Lifts

#### **Name: Albonabahn I**

Where: Stuben am Arlberg

When: Winter 2023/24

The Stubner Bergbahnen are replacing the Albonabahn I with a modern 8-person monocable gondola lift, which is a great quality improvement for both Stuben and the entire Ski Arlberg ski area.

Website: <https://www.skiarlberg.at/en>

#### **Name: Ski lifts Schröcken**

Where: Schröcken

When: Winter 2023/24

A snow-making facility will be built and set up at the Schröcken ski lifts to ensure a descent to the Salober valley station even if the season starts with little snow.
