HANNIBAL THE GLACIER SPECTACLE

The glacier spectacle HANNIBAL shows the history of Carthage amidst the mighty mountains of Tirol. In collaboration with Sölden and Red Bull, the [Lawine Torrèn](#) artistic network is staging Hannibal's historic **crossing of the Alps** with **snow groomers, airplanes, dancers, helicopters and extreme athletes** as a real and tangible performance at 3000 meters above sea level. Around 75,000 spectators have watched the spectacle since 2001. It's a show unlike any other, possibly the **greatest contemporary performance** in the world.
