

The SkiWelt News insanely compact.

Winter 2024-25

There's never a year without improvements. Nor a year without investment. This year, the SkiWelt mountain railway companies are investing over 27 million euros to make the ski area even more modern and sustainable and to offer new services. The new buildings represent a new dimension in comfort and service in one of the largest and most sustainable ski areas in the world.

SkiWelt Scheffau

Insanely strong. Insanely sustainable. The 8-seater Eibergbahn is the highest-capacity and one of the most energy self-sufficient chairlifts in the world.

The new 8-seater Eibergbahn is being built on the same route and, with a dynamic transport capacity of up to 4,570 passengers per hour, will be the world's most powerful detachable chairlift. It has a maximum travelling speed of 5 m/s and is equipped with seat heating, but without a bonnet for wind-related reasons. In the interests of energy efficiency and resource conservation, variable seat insertion will be possible from a minimum of 16 seats, depending on requirements. A centrepiece of the new Eibergbahn is the new 140 kWp PV system on the roof of the Eibergbahn valley station. This will enable around 50% of the annual energy required to be generated by the cable car itself. Another milestone in the SkiWelt mountain railway's complete energy efficiency. Incidentally, the old Eiberg lifts are not yet retiring - they have been sold and will start their second cable car life after a refurbishment overseas.

TECHNICAL DETAILS EIBERGBAHN:

BAHN-Type: 8 CLD/B | with seat heating

Speed: 5m/s

Conveying capacity: up to 4570 P/h

Info: www.skiwelt.at/neuerungen

SkiWelt Söll

SkiWelt Söll starts the 2024/25 winter season with electricity from its own small hydropower plant

Thanks to the construction of the small hydropower plant on the Stampfanger stream, Bergbahnen Söll will be able to generate around 25% of its annual energy requirements itself from December 2024.

Looking at the summer operations from May to October, both gondola lifts to Hexenwasser and Hohe Salve will be operated almost entirely energy self-sufficiently in the future.

"Energy self-sufficient operation - with the construction of our small hydropower plant, we are taking a big step in this direction! For this reason, Bergbahnen Söll has taken the opportunity to invest in a small hydroelectric power plant right next to the valley station," says Mario Gruber, Managing Director of Bergbahnen Söll.

Maximum output: 380 KW | Annual output: 1,500,000 kW/h

Info: www.skiwelt.at/neuerungen

SkiWelt Westendorf

Insanely ecological - New Aiblboden reservoir for even more sustainability.

Valley runs and practice areas in the valley in SkiWelt Westendorf are now guaranteed snow. This will be made possible by the new Aiblboden, a 90,000m³ natural snow pond near the middle station of SkiWelt Westendorf.

"The aim is to be able to make artificial snow for the valley runs and all areas close to the valley, including the popular ski-in & ski-out practice meadow area in the village centre, even during short snowmaking windows. Another advantage is that the water is already there in autumn when needed and is also available at a much lower temperature, meaning that the mountain railways are also able to make snow in an even more resource-efficient way. During the construction work, the pistes will also be adapted. Run 110 in the "Ellmerer Schlag" area will be widened, making it safer," says Stefan Grafl, Managing Director of Bergbahn Westendorf.

SkiWelt Brixen im Thale

Giant panorama viewing platform

A new giant panoramic experience awaits all skiers in SkiWelt Brixen at the top station of the Zinsberg cable car. Easily accessible by passenger lift or stairs, skiers can enjoy a 360° panorama at the top that they have never seen before. Visitors can also use 3 Viscope binoculars free of charge to see the mountain peaks up close. The giant relaxation zone with huge hands and feet invites you to linger. By the way: From next winter, pedestrians will also be able to use the Zinsberg cable car and enjoy the giant panorama at the top.

From this winter, the Zinsbergbahn will be part of the SkiWelt Winter Hiking Pass. This pass includes 2 different ascents and descents per day (morning + afternoon) on all SkiWelt access lifts (Exception Ki-West) The ticket is only valid for pedestrians without ski equipment.

Info: www.skiwelt.at/neuerungen

SkiWelt Söll:

Haunted Kinderland with mini conveyor belt and a natural ice rink on Hochsöll

A completely new and free **winter wonderland** is being created this year in Hochsöll. At the middle station below the Hexenwasser gondola station, a **natural ice rink**, a **winter playground** for romping around in the snow, a small fun conveyor belt for first experiences with skis and a relaxation area with sun loungers are all planned. In the heated gingerbread house right next to the ice rink, little ones can borrow equipment for sliding and playing for free (while stocks last). The new **winter adventure trail** for pedestrians to the Stöcklalm also starts from here.

All ski passes are valid (SkiWelt, SuperSkiCard, SnowCardTirol), the Winter Hiking Pass, as well as a separate mountain and valley ticket from the Bergbahnen Söll (adults: 21.00 EUR & children 10.50 EUR).

SkiWelt Wilder Kaiser - Brixental

The SkiWelt Winter Hiking Pass is being extended.

SkiWelt Wilder Kaiser Brixental is expanding its offer for winter hikers, connoisseurs and panorama lovers with the Zinsberg cable car and the Riesen-Panorama viewing platform.

The SkiWelt Winter Hiking Pass is available for 3 - 6 days at all SkiWelt cable car stations. It is ideal for enjoying the enchanting winter landscape on the mountains, exploring the numerous winter hiking trails of the SkiWelt Wilder Kaiser - Brixental and savouring real regional delicacies at the many family-run huts and mountain restaurants.

With just one ticket, winter hikers in the SkiWelt Wilder Kaiser - Brixental can use 13 panoramic mountain railways, including the new Zinsbergbahn. Once at the top, fantastic panoramic views await of over 70 peaks above three-thousand metres from the Wilder Kaiser to the Großglockner. The winter hiking pass is valid for all SkiWelt access lifts (except KiWest) and includes two ascents and descents per day - only for pedestrians without ski equipment. For adults, the Winter Hiking Pass is 91.50 euros for 3 days and 146.50 euros for 6 days.

www.skiwelt.at/bergadvent

Winterwoodstock of brass music 21 - 23 March 2025

The **fourth edition from 21 - 23 March 2025** will celebrate "**Brass Music on the Rocks**". In 2025, well-known and modern brass musicians will once again provide the best atmosphere on the Main Stage, the Dorfbühne or in the SkiWelt at the Nieding Alm, the SkiWelt Hütte, the Sonnalm or the Brixner Stadl. The "Blasmusik-Hütten" are located directly on the ski piste. The concerts are easy to reach for **skiers** and **pedestrians**, so that everyone can enjoy the music and at the same time make the most of the magnificent ski areas.

INFORMATION

SkiWelt Wilder Kaiser - Brixental Marketing GmbH

A-6306 Söll | Tel: +43 5333 - 400 | office@skiwelt.at | www.skiwelt.at

With 81 modern lifts, over 275 kilometres of perfectly groomed pistes, more than 80 family-run huts and 9 different access points, SkiWelt Wilder Kaiser - Brixental is one of the largest and most modern ski resorts in the world. Only 1 hour away from Salzburg, Innsbruck and Munich, the SkiWelt is also incredibly quick and easy to reach. Due to the countless projects in ecology and sustainability, SkiWelt has already received the award for the most ecological ski area in the world several times. For example, the entire SkiWelt has been powered by 100% green electricity from Tyrolean hydropower for many years. Unique panoramic views of the Wilder Kaiser and over 70 three-thousand metre mountains up to the Großglockner as well as a unique variety of pistes and additional experiences await in the SkiWelt Wilder Kaiser - Brixental!
