### **Vienna**

#### **In a Baroque Jewel: The Leo Grand Hotel Vienna**

Just a few steps away from St. Stephen's Cathedral, the Lenikus group is transforming a listed baroque jewel into a luxury hotel with 76 rooms and suites. Its opening is scheduled for April 2022. Head designer Gabriele Lenikus and her team have courageously reimagined baroque design and spectacularly translated it into the present. Quite fittingly they have incorporated the figure of the eccentric, fun- and art-loving Emperor Leopold I, who can be felt here as a host and encourages you to go on a journey of discovery through the building and the city. The hotel's character is also reflected across its dining options, whether seated at what must be one of Vienna's most exclusive outdoor tables, in the winterproof courtyard, an elegant bar or one of the private dining areas.

Guests will be able to enjoy the best views of the city from the rooftop bar. There will also be a restaurant, spa, and event rooms.

#### **Trendy Meeting Place: BASSENA Wien Donaustadt**

The Bassena Wien Donaustadt will be opening in the trendy new district of Vienna Twentytwo in the 3<sup>rd</sup> quarter of 2022. Similar to the existing Bassena Wien Messe Prater, the 4-star hotel will serve as a buzzing hotspot as well as a relaxing retreat. 198 rooms of almost 17 m<sup>2</sup> in size are spread across 9 floors. The first floor accommodates the public spaces including a library, Bassena Kitchen, living room, conservatory, and terrace with sidewalk café. The interior design by Kitzig Design Studios is young, dynamic, and full of life. The local recreation areas Donauinsel, Donaupark, and Alte Donau are only a few minutes away, which incidentally explains the meaning of "Bassena" in Vienna: the communal water tap of a shared building – a typical Viennese meeting place.

#### **In the Footsteps of the Pioneers on Hauser Kaibling**

Who were the courageous men that built the very first shelter on the Hauser Kaibling in 1907, a mountain in Styria's Schladming-Dachstein region? The almost 3 km long trail leads from the Quattalpin mountain station to the 8-seater cable car mountain station or in the opposite direction. At 10 stations, hikers can learn all about the first shelter, the construction of the first cable car, and how it came about that you can now float up the Hauser Kaibling by gondola.

Hikers can listen to stories about the mills, find out about agriculture and forestry, and come to understand Peter Rosegger's enthusiasm for the "new metropolis" of Hartberg. Because in 1891 the railway line was extended to Hartberg, which Peter Rosegger travelled on three days after it went into operation and subsequently raved about in an essay.
